

Public Access Defibrillators (PADS) In The Henfield Area

List as at 13th April 2018

HENFIELD - CENTRAL VILLAGE AREA

Acacia Groundcare, Hollands Road.

Enter through the main door – the PAD is directly in front of you, next to the main Reception door.

Budgens, High Street

From the High Street enter through the main doors and turn left towards the tills – the PAD is on the wall by the windows.

Cricket Club Pavilion, Brighton Road

Enter through the main pavilion door and walk round the left hand side of the counter to the back of the room, then turn right – the PAD is on the back of the counter wall.

Football Club Pavilion, King's Field

TBA.

Henfield Hall, Cooper's Way

Enter through the Hall's main doors – the PAD is on the right, next to the Parish Office door.

Henfield Haven, Hewitts

The PAD is located behind the Reception Desk, which is on the right hand side of the main foyer. If the door is unattended, try the café door at the end of the building.

Library, Off High Street

Enter through the Library main door – the PAD is on the right hand wall of the foyer.

Leisure Centre, Northcroft

Enter through the main door – the PAD is on the right hand side of the reception desk.

Medical Centre, Deer Park

Enter through the main sliding door, then through the inner door into the waiting room, then turn right and right again - the PAD is on the inner wall of the reception area.

Stokes, High Street

On the wall of Stokes that borders Cagefoot Lane. Clearly visible from the High Street as one approaches Stokes from the North.

St. Peter's Church, Church Lane

Enter through the main church door – the PAD is on the right hand wall of the porch, next to the bell tower doorway.

St. Peter's School, Fabian's Way

Enter through the door in the playground that is approximately half way down the side of the building and lays back. Continue for about 20 yards and turn left; the PAD is on the wall.

Swain's Farm Shop, Brighton Road

Enter through the main door – the PAD is on the left hand side of the foyer.

White Hart Inn, High Street

Enter through the side door from the car park and turn left – the PAD is immediately in front of you, to the left of the bar counter.

HENFIELD – OUTLYING AREAS**Albourne: Firstrand Park, Wheatsheaf Road**

Drive east along the Wheatsheaf Road (past the pub on your right), turn left into Firstrand Park (Not Firstrand which is about 350 yards before the correct turn), and proceed along a long drive, as you enter the Business Park, bear left and there is a company called Southdown Engineers Ltd on the left, to the right of this is a portakabin and the bright yellow PAD is fixed to the wall to the left of the reception door.

Blackstone: Cricket Club, Blackstone Lane

The PAD is on the exterior right hand wall of the cricket pavilion.

Henfield Business Park, Shoreham Road

Driving into the park, take the 1st right, and half way along the line of units on your right is Unit A, with a brick wall sticking out at right angles and the PAD is fixed to this brick wall.

Shermanbury: The Bull Inn

On entering the main doors of the pub, turn left and walk round the left-hand side of the bar – the PAD is facing you on the inner wall.

Twineham: St. Peter's Church

The PAD is located just inside the church porch, low down on the right hand wall.

Wheatsheaf Road: Blacklands Farm

From the car park, turn right through the gate into the main camping area and along the path to the main reception hut on the left – the PAD is on the front of the hut, to the left of the door.

Wineham: Royal Oak Public House, Wineham Lane

Walk to the front of the pub and turn right by the front door to the corner of the main building – the PAD is on the external side wall of the pub.

HART PAD LOCATIONS SOUTH OF HENFIELD

Edburton (Two here).

One defibrillator is located at Coles Automotive which is at the end of Browns Meadow, a track that begins roughly opposite to Springs Smoked Salmon.

It is kept in their reception area and is thus only accessible during garage opening hours.

A second defibrillator is in St Andrews Church. The church is on the left as you drive towards Poynings and is a little way past Springs Smoked Salmon. The entrance lies back about 70 yards from the road, and to find the defibrillator it is necessary to go through a gate and two outside doors. The defibrillator sits on a chair to the left of the second door, and if you need light to find it, there are 9 switches in 3 banks of 3 on the left just inside the second door, and you need the middle one in the bottom row.

Fulking

The Fulking defibrillator is in the centre of the village. The red door to the right is the entrance to the green corrugated iron shack that has served as the village hall for the last ninety years. The porch to the left is the entrance to a tiny brick chapel now used as the church bookstore. The defibrillator is in this porch and is accessible 24 hours a day, seven days a week.

Poynings: Forge Garage

This is in the centre of the village at The Forge Garage on the Poynings Road, just east of the Royal Oak, at the bottom of a dip in the road. It is kept in an old red telephone box on the forecourt and is accessible 24 hours a day, seven days a week.

Poynings: Rushfields Plant Centre

The other Poynings defibrillator is to be found in the checkout area at Rushfields Plant Centre on the A281 Henfield Road about 100 yards north from the Poynings roundabout. It is only accessible during opening hours.

Small Dole

The Small Dole defibrillator is kept near the bar at The Fox public house at the south end of the village on the A2037.
